

Albany and 17th/Sherman Drive Roundabout

Beech Grove, Indiana

Albany and 17th/Sherman Drive Roundabout

Scope:

Convert a 5-leg
signalized intersection
into a roundabout.

Services Provided:

Construction
Inspection,
Roundabout
Education, Design

Client:

City of Beech Grove

Contact:

Terry Dilk
Mayor
317-788-4979

Constructed:

Fall 2011

Project Highlights

- This project involved the conversion of an existing 5-leg signalized intersection into a roundabout.
- Beech Grove's very first, and Marion County's first roundabout on thoroughfare streets.
- Constructed in just 45 days and opened to traffic just prior to the Labor Day weekend, 2011. This \$725,000 federal aid CMAQ project was built to replace an inefficient, 5-legged, signalized intersection in a high density urban location near a hospital and school.
