Contact:

Diana Virgil, President  
B&O Trail Association

John Ayers, County  
Engineer

Constructed:

Summer 2010

Construction Cost:

\$3,000,000

### Project Highlights

- This project entails the construction of a 3 mile long asphalt pedestrian path in Hendricks County.
- In addition to the path, this project also included the construction of two prefabricated, steel truss bridges on concrete abutments and steel piling.
- Wood decking and trench drain systems were utilized through the tunnel crossing under Ronald Reagan Parkway.
- Other decorative features were included in this project including limestone blocks, landscape plantings, pedestrian cross walks, and flashing beacon assemblies at road intersections.
